

CORN ROAST

**1341 Albany Post Road
Croton-On-Hudson, NY 10520
Engineerium Phone: 914-271-4929**

DRIVING DIRECTIONS:

Via Automobile

– **#1 From points in Brooklyn, Queens, Long Island:** Take Grand Central Parkway westbound to I-278 north. Take I-278 to the Triborough Bridge. Toll for bridge is \$3.50. Exit north to the Major Deegan Expressway (I-87). Take Major Deegan, which becomes the New York State Thruway, to the Tarrytown exit, which is last exit before the Tappan Zee Bridge. (Don't go over the bridge!) Take Route 9 north and follow directions in second paragraph of #3 below.

– **#2 From Orange County, Ulster County, northern Connecticut and points northwest:** Take I-84 south to Route 9. (Alternatively, take Taconic Parkway – the exit is after Route 9 exit – and follow directions under #6 below.) Take Route 9 South, the third exit after the Beacon/Newburgh bridge. Travel about 15 miles and at traffic circle, take the Annsville Creek bridge (the second exit from the traffic circle) and make a right onto Route 9. After the town of Peekskill, the road widens. After several miles, take the Montrose/Buchanan exit to 9A. Turn left onto Old Albany Post Road/9A. After passing the A&P on the left, followed by intersection with Scenic Drive, keep a sharp eye out for yellow diamond 40 mph curve sign. Make a hard left turn at the orange SIA sign and follow signs for Engineerium.

– **#3 From Manhattan and points south:** Take Henry Hudson Parkway north. You will pass under the George Washington Bridge, an IA wonder. Leaving Manhattan, you will cross a toll bridge costing \$1.75. After several miles, the Henry Hudson Parkway makes a seamless transition to the Saw Mill Parkway. After about 10 miles there is a big hill with a sign, "Eastview." Two-thirds of a mile beyond the hill, take exit 25, "Route 9A, Hawthorn." Turn left onto 9A. After five miles a big hill will lead you toward the Hudson River. You will cross the Croton River and see the Harmon railroad shops on your left. Three miles from the hill, take the Senasqua Road/9A exit. Turn left on to Riverside Avenue/9A and go up the hill. (Do not exit back on to 9. The signage is very confusing right in here.) Riverside Avenue becomes the Old Albany Post Road. Landmarks on your right will be intersection with Prickly Pear Road, and the Arrowcrest subdivision, the entrance to which is now called Arrowcrest Road. You're close now. Up a hill and down, you'll pass a sign that says, "school bus stops ahead," at the bottom you'll see a yellow diamond sign with an arrow. Turn hard right at the orange SIA sign and follow signs for Engineerium.

– **#4 From northern New Jersey and Rockland County:** Cross the Tappan Zee Bridge (there will be a toll), stay in right lane and take first exit to Route 9 north. Follow Route 9 through the towns of Sleepy Hollow and Ossining. After the Dominican Sisters convent, stay in left lane and watch for signs and take Route 9A north. Follow directions in second paragraph of #3, above.

– **#5 From southern Connecticut or Eastern Westchester County:** Take I-95 to westbound I-287 to Sprain Brook Parkway north. The Sprain merges into the Taconic Parkway. Exit at Route 9A north. Then follow directions in second paragraph of #3 above. (Tip: If you miss the 9A exit, continue north and take the I-34 exit. Make a left and follow I-34 to the first traffic light. Turn right onto 9A and follow direction in second paragraph of #3.)

– **#6 From upstate New York:** Take Taconic Parkway south to westbound Route 202/35. Go west on 202/35 for 2-1/2 miles and exit onto Bear Mountain Parkway. Bear Mountain Parkway meets Route 9A at the Annsville Creek Bridge. Go straight through light past bridge and up the hill. Follow directions in second paragraph of #2 above.
